## NEW TAX REDUCTION BILL IS AGREED UPON

### REVISED BY CONFEREES OF BOTH HOUSES

APPROVED BY PRESIDENT COOLIDGE AND SECRETARY OF TREASURY MELLON

EXPECTED TO BE MADE A LAW BEFORE END OF NEXT WEEK

By PAUL R. MALLON  
(United Press Staff Correspondent)  
Washington, Feb. 20.—The new tax reduction bill, as revised by conferees, will be approved by both houses of congress, President Coolidge and Secretary of the Treasury Mellon and will be made a law before the end of next week.

As finally approved by the house and senate conferees late yesterday, the bill carries a reduction of \$381,000,000 in the federal tax burden. This amount is \$51,000,000 more than Mellon advised but the variance is not enough to place the nation's financial arrangements in jeopardy and will stand.

There is opposition to the settlement in both houses, but the necessity for making the bill a law in time to affect the March 15 payments is such that no extended fight is expected.

The agreement will be accepted in the house Tuesday and in the senate Wednesday or Thursday. It will then go to the White House and Mr. Coolidge is expected to sign it Friday or Saturday.

The principal provisions of the bill as agreed upon are as follows:

**SURTAXES**—Adoption of the revised scale of the senate, making a slight change lowering the house rates on incomes between \$25,000 and \$100,000. The scale runs from one per cent on \$10,000 to 20 per cent on \$100,000.

**ESTATE TAX**—Retention of the estate tax with the house provision of a 20 per cent maximum rate and permitting the states to collect 80 per cent of the levy.

Raising exemptions from estates of \$50,000 to those of \$100,000. Adoption of a modified retroactive clause at a 25 per cent maximum rate.

**ADMISSIONS**—Retention of the 10 per cent tax on admissions to amusements with an exemption of admissions of 75 cents and less, instead of 50 cents as cited in the present law.

**AUTOMOBILES**—Lowering of the present tax on pleasure automobiles from 5 to 3 per cent.

**CORPORATIONS**—Elimination of the present tax of \$1 per \$1,000 issue of capital stock and increase in the corporation tax from 12½ to 13 per cent this year and 13½ per cent next year.

**OIL DEPLETION**—Reduction of depletion allowances to oil drilling companies from 30 per cent voted by the senate to 27½ per cent.

These were the only issues in dispute between the two houses and the rest of the bill including the normal rates stand as passed.

Personal exemptions are: For single taxpayers, \$1,500; for married taxpayers, \$3,500. In the present law the exemptions respectively are \$1,000 and \$2,500.

The agreement is a perfect compromise and varies but slightly from the agreement planned Saturday as carried by the United Press.

The conferees met again today to eliminate any errors that may have crept into the agreement and the bill will go to the printers this afternoon for presentation in the house Monday.

### CLEAR SAILING PREDICTED FOR BILL

Washington, Feb. 20.—Clear sailing for the new compromise tax bill reducing payments to be made next March 15 was predicted by both house and senate leaders after a final conference perfecting the measure today.

The last draft of the \$381,000,000 tax reduction measure was sanctioned by conferees of both houses and Chairman Green of the house ways and means committee and Chairman Smoot of the senate finance committee expressed the opinion that the bill would be made a law without change from its present form before the end of the week.

**Baffled Robbers, Wounded And Dies**  
Minneapolis — Fred J. Devlin, guard of the Minneapolis street railway's money transfer car, who was wounded when he baffled an attempt at robbery last November, died late yesterday as a result of his wounds. He had been in a hospital since the shooting.

## Brainerd Daily Grows as a Telephone Center

### 13 SOVIET SUBJECTS GET DEATH DECREE

Leningrad, Feb. 20.—(UP)—Convicted of espionage on behalf of Estonia, 13 Soviet subjects were sentenced to death today by a court martial trying a total of 38 accused.

Presiding Judge Ulrich declared that the British and Estonian intelligence services had paid considerable sums to the accused for getting military information and to blow up the Leningrad aqueduct and some bridges.

### ANTI-VOLSTEAD DRIVE IS NOW MARSHALLING

4 U. S. SENATORS, NEARLY 100 REPRESENTATIVES IN NEW ATTACK

ALSO MINISTER OF TEMPERANCE SOCIETY AND VICE PRESIDENT A. F. OF L.

Washington, Feb. 20.—(UP)—Four United States senators, nearly 100 representatives, Rev. James Ermingham of the Protestant Episcopal Church Temperance society and Vice President Matthew Woll of the American Federation of Labor, today were announced as leaders in the latest anti-Volstead act drive which will marshal its forces here Monday.

More than 500 persons have accepted invitations to the "face the facts" dinner Monday night and 2,000 will attend the conference meeting that afternoon, C. C. Hinckley, secretary of the Association Against the Prohibition Amendment which sponsored the gathering, announced.

Senator Walter Edge, republican, New Jersey, author of several measures to modify the prohibition enforcement laws, will speak at the dinner on the progress of the campaign to substitute common sense temperance for "hypocritical prohibition which does not prohibit," Hinckley said.

### DENY STATEMENT OF BUYING LIBRARY OF HERSHEL V. JONES

Pasadena, Calif., Feb. 20.—(UP)—Published statements that Henry E. Huntington, Pasadena multimillionaire, had purchased the famous library of Hershel V. Jones, publisher of the Minneapolis Journal, were denied today by Huntington's secretary and by his librarian, Leslie E. Bliss.

"It is absolutely false," said Bliss. "Mr. Huntington has not negotiated for the Jones collection and has not added any books to his library recently."

"I know nothing about the Jones collection," it was stated at the home of Huntington, who was indisposed with a slight illness.

### LAD KILLED COASTING DOWN DULUTH HILL

Duluth, Feb. 20.—(UP)—Helger Stronberg, 11, was instantly killed here last night in the second bob sled accident of the week. The lad was coasting down hill when his sled collided with a slowly moving automobile driven by Hugo Swanson.

Witnesses exonerated Swanson of blame. Earlier in the week five boys were injured in a similar accident.

### GAY YOUNG OXFORD STUDENTS MIAMI ATTIRE

London, Feb. 20.—(UP)—With "brollies" (umbrellas) now affected by all the gay young Oxford undergraduates the Oxford man today wears:

No hat.  
Bag trousers.  
A "brolly."  
A rainbow colored jumper.  
And a turn down collar.  
To say nothing of:  
A sports coat.  
Horn glasses.  
And golf hose.

### BERGER WANTS VERSAILLES PACT REVISED SOON

ALONG LINES OF WOODROW WILSON'S FOURTEEN POINTS

ASSERTS THE WORLD WAR WAS "BASED ON A MILLION LIES"

Washington, Feb. 20.—(UP)—Asserting that the world war was "based on a million lies," Representative Victor Berger, socialist, Wisconsin, today introduced in the house a resolution requesting President Coolidge to revise the treaty of Versailles along the lines of Woodrow Wilson's 14 points.

"The greatest lie in all the world war propaganda, the lie which lies at the bottom of all present troubles of the world, is the lie that Germany was the sole cause of the world war," Berger said.

"The hellish pact of Versailles rests on that lie. Without that lie the pact cannot exist. Poincare in France, Lloyd George in England and Hughes here have repeatedly admitted that the pact rests upon Germany's guilt."

"The fact is that Germany did not wish the war and did not provoke it. The vain glorious kaiser and the egotistic and stupid ruling class simply permitted Germany to fall into the trap. Once that is recognized as it has already been established the treaty of Versailles can be revised so as to permit recovery of Europe."

### "SEETHING WITH BOOTLEGGING, VICE, THIEVERY"

CITY MANAGER GIVES HIS HOME TOWN, WATERVILLE, A HARD NAME

NATIONAL ANTI-SALOON LEAGUE WAS CRADLED IN THIS OHIO CITY

By HARRY W. SHARPE  
(United Press Staff Correspondent)

Waterville, O., Feb. 20.—This little village, where the national Anti-Saloon League was cradled, is "seething with bootlegging, vice and petty thievery," L. G. Whitney, city manager, charged today in an interview with the United Press.

Whitney is the central figure in a fight to oust City Marshal Harry Nutt, declaring the marshal had allowed "bootlegging and vice, verging on debauchery, to flourish at the very door of the Anti-Saloon League here for five years."

Nutt defied Whitney to prove his assertions. "Perhaps vice is rampant here, but there is no evidence of it," Nutt asserted.

The marshal a few days ago was the principal in an unsuccessful dry raid in which an alleged woman decoy sought to entice him into a liquor entrapment. Nutt kept the rendezvous, but when dry agents swooped down upon him, his pockets divulged no bottles and his status as marshal remained unchanged.

Whitney declared he could name a score of instances wherein the liquor law had been violated within the shade of the Anti-Saloon League headquarters.

### CAPTURED AFTER SPECTACULAR MAN HUNT ALONG GULF

Gulfport, Miss., Feb. 20.—(UP)—Jesse Favre, moonshiner and confessed leader of a trio, who shot two United States department of justice employees, was captured in the shoals of Soney Island, near here, after a spectacular man hunt conducted by more than 50 deputies.

Shoes that had been taken from W. W. Minge, one of the victims, and the watch and other valuables of J. G. McLemore, the other man slain, was found in Favre's possession.

Minge and McLemore had started on a hunting trip. The bodies were found yesterday and a search for their slayers was instituted immediately. No trace of the other killers was found.

### SABBATH DAY FOR MORRIS LEVI BUT NOT FOR HIS COW

St. Paul, Feb. 20.—(UP)—It is the Sabbath day for Morris Levi. It is uncomfortable today for Morris Levi's cow.

Levi's cow fell on the ice and Levi refused to break the Sabbath to help her to get up. Firemen, who have no Sabbath day scruples raised Levi's cow to its feet, saving her from a "holy" miserable day.

### "MANIAC SNIPER" AT OMAHA IN ANOTHER SHOOTING

DANGEROUSLY WOUNDED ROSS W. JOHNSON, RAILWAY DETECTIVE

WAS SHOT 6 TIMES BY A .22 CALIBER AUTOMATIC PISTOL

Omaha, Neb., Feb. 20.—(UP)—Omaha's "maniac sniper" shot and dangerously wounded Ross W. Johnson, 28, Wabash railroad detective at Council Bluffs, Ia., last night and today still defied detection.

Johnson was shot six times with a .22 calibre automatic pistol in the Wabash yards across the river from here and the only evidence left by the maniac was the same left his other victims, empty cartridge shells.

Four of the bullets are believed to be lodged in Johnson's back, one near the spinal column being particularly dangerous. Another bullet struck the right arm while the sixth is in his right wrist.

Johnson formerly lived in Kansas City, Mo., where his mother, Mrs. W. E. Johnson still resides.

Council Bluffs police arrested Ted Rice, 25, St. Paul railroad machinist, when they found Rice's pay check behind a pile of ties where the gunman had stood while shooting Johnson. Rice explained that he had lost the check several days previously. He did not fit Johnson's description of his assailant, but is being held for further investigation.

The man who shot Johnson wore a leather vest, the detective said. He was about 5 feet 10 inches tall and of medium build, Johnson said. The maniac has been operating a week during which he has killed two men, one a prominent physician and wounded half a dozen others. All the shootings took place at night. As the maniac makes a habit of shooting through lighted windows, most of the homes here are kept dark.

### Army Chaplain Confronts Charge Familiarity With Girl

San Francisco, Feb. 20.—(UP)—Chaplain Orville I. Clappett, U. S. A., accused of familiarity with two girls while stationed at Fort Leavenworth, Kan., will be tried here by a military court martial, the United Press learned today.

Clappett was sent from Leavenworth to duty at Vancouver Barracks, Wash., and from there was transferred to the Presidio of San Francisco the first of the year to face the accusation against him.

### Congress Today

Senate:  
Not in session.  
Judiciary committee considers rule of procedure.

House:  
Considers independent offices appropriation bill.  
Roads committee considers federal aid to states in construction of rural post roads.

Congress 100 Years Ago Today  
Senate:  
Met in executive session.

House:  
Defeated by 85 to 52 a motion to observe Washington's birthday by adjourning. "The most respectful way the house could pay respects to the memory of George Washington would be to give due attention to the discharge of the people's business," said Representative Forsythe of Georgia, adding that business transacted thus far this session had been "not much and not well done."

### HOUSE RESTS ON ITS OARS, ENOUGH DONE

AVIATION LEGISLATION AND SOME FARM RELIEF AWAITS ACTION

REGULAR SUPPLY BILLS TO BE DISPOSED OF SOON

Washington, Feb. 20.—(UP)—With the exception of aviation legislation and possibly a farm relief measure the house expected to do very little law making of any consequence after the regular supply bills are disposed of, leaders indicated today.

Consideration of farm relief is still in doubt, as farm leaders are more or less at odds over the exact form of aid the government should extend to the farmer. Leaders have set April 1 as the dead line for consideration of the supply bills and are confident that they will all be passed before that date.

Within a week the naval committee is expected to present a comprehensive plan for improving conditions in the navy air service. The committee already has approved an \$85,000,000 five year building program, which will be incorporated in the bill.

The naval committee bill will probably be one of the first considered after the money measures have been passed.

Several days will be given over to consideration of sectional and local legislation.

### BRITISH BOAT REPORTED HIT BY SHELL FIRE

EASTWOOD ARRIVES AT HALIFAX IN DAMAGED CONDITION

CLAIMS SHE WAS FIRED UPON BY A U. S. REVENUE CUTTER

Halifax, N. S., Feb. 20.—(UP)—Her spars and rigging damaged by shell fire, the British schooner Eastwood reports that she was fired upon by a United States revenue cutter, while en route northward from the States.

The captain's cabin was punctured, it was claimed, though the captain himself was not injured. Stories of the incident vary. One version has it that the cutter reported to have been the Seneca, was at target practice firing shells at a floating target, when the Eastwood came into the range of her fire and was riddled by the shells intended for the target.

Another version was that the cutter crew boarded the Eastwood after the firing and subsequently permitted her to proceed.

### STATE WIDE LIQUOR PLOT CLAIMED SHOWN

Minneapolis, Feb. 20.—(UP)—A state wide liquor conspiracy plot was revealed today here with arrest of two men, one a former federal prohibition agent on charges of accepting bribes from St. Cloud and Fergus Falls soft drink bartenders.

The men arrested are H. L. Herzhman, the former officer, and George L. Ford, a bond salesman. Both pleaded not guilty when arraigned before U. S. Commissioner Howard S. Abbott on formal charges of conspiracy. Bond was placed at \$5,000 each and hearing was set for next Saturday.

The bartenders alleged to have paid bribes to the two men are awaiting trial in United States district court at Fergus Falls.

### Country Bank Closed

Dovray, Minn., Feb. 20.—(UP)—The State bank of Dovray was closed today on order of A. J. Viegel, state commissioner of banking. Depleted reserves was given as reason for the action. Capital of the bank was \$25,999 and deposits \$200,000. Anton Lindstrom was president and H. T. Simonson cashier.

### DEFECTIVE WIRING CAUSED \$850,000 ELEVATOR FIRE LOSS

Council Bluffs, Ia., Feb. 20.—(UP)—Fire, believed to have been caused by defective wiring, last night destroyed the Trans-Mississippi grain elevator here with a loss estimated at between \$700,000 and \$850,000.

Five hundred thousand bushels of corn and 225,000 bushels of oats were destroyed with the building. The offices, power plant, millwright shop and a storage house also were destroyed.

### MARION TALLEY SINGS TO RADIO FANS, 6 MILLION

MUSICAL HAPPENINGS CONTINUE TO OCCUPY NEW YORK'S ATTENTION

JAZZ BALLET INVADES SACRED PRECINCTS OF METROPOLITAN OPERA HOUSE

By PAUL W. WHITE  
(United Press Staff Correspondent)

New York, Feb. 20.—Musical happenings, usually buried obscurely in the news of the day, continue to occupy the forefront of the city's attention.

But when 19 year old Marion Talley sings over the radio to an estimated 6,000,000 and when the Metropolitan opera house allows a jazz ballet to invade its once so respectable portals, there's nothing left to do but declare yourself in on the renaissance and dive for your headsets or fight your way through a crowd to the opera house.

Marion, the Met's newest Prima Donna, sang "Home Sweet Home" and other melodies for the home folks back in Kansas City, Mo., and such others as tuned in on the biggest loop of radio stations ever put on a single circuit.

John Alden Carpenter's ultra modern ballet "Skyscrapers" pictured such things as workmen swarming on steel girders, Coney Island dusky Negroes singing spirituals, high stepping flappers, and whiteknights, all to the moan of a saxophone and the twang of a banjo, part of a symphony orchestra.

The ballet had no plot merely the theme that New Yorkers work hard and play hard and a typical Metropolitan audience, such as that which two nights before had given Marion Talley an inspiring ovation, took the novelty to its heart.

### JURY DISAGREES IN TRIAL OF BANKER

Grand Forks, N. D., Feb. 20.—(UP)—After 24 hours deliberation, a jury today announced disagreement in the case of W. V. O'Connor, former secretary of the defunct First Savings Bank, charged with embezzlement.

No announcement was made concerning eleven other counts facing the banker. Date for a new trial was not set.

### 3 DEAD, 4 HURT IN BOARDING HOUSE FIRE, GREENVILLE S. C.

Greenville, S. C., Feb. 20.—(UP)—Fire sweeping through the boarding house operated by Mrs. C. I. Smith here today took a toll of three dead and four badly injured.

Evelyn, 11, and Earl Smith, 15, were found dead on the sleeping porch. Russell Hamby, 23, met death in a bathroom.

### PRES. COOLIDGE DECIDES TO REMAIN IN BED

Washington, Feb. 20.—(UP)—Although much improved in condition President Coolidge decided to remain in bed to rid himself of his cold.

The president called off all engagements for today although he will carry on much of his routine work.

The president is making every effort to throw off his malady so that he may be able to make his speech at the National Education association meeting Monday night, Secretary Sanders said.

### TWO NEW RURAL TELEPHONE LINES ARE ESTABLISHED

FULL METALLIC CIRCUITS BEING CONSTRUCTED FROM CROSS LAKE TO BRAINERD

BRAINERD EXCHANGE REACHES OUT TO POINTS 35 MILES AWAY, UNUSUAL FOR FARM LINE

Two new rural telephone lines are being constructed into Brainerd from Cross Lake. Each line will have 20 subscribers. These lines will be full metallic circuits, which will eliminate all cross talk and induction from outside influences.

Of the 50 rural lines operated by the local exchange, only six are full metallic circuits. Five of these are between Brainerd and Gull Lake, while the other is line No. 4, serving the South Long Lake circuit. Eventually all lines will be made full metallic, according to Henry D. Hoffman, manager.

The service given by a metallic circuit is remarkable compared with the grounded line. There is no rumbling or crackling, due to electric wire disturbances or atmospheric conditions, and no cross talk from other lines. The metallic line requires two lines of wire, and is more expensive, but gives perfect results.

The new rural lines of the local exchange reach out to points 30 and 35 miles out of the city, an unusual distance for rural lines. The usual average is 8 miles. They will serve patrons in Watertown township, and the summer resorts at Cross, O'Brien, White Fish and Goodrich lakes.

The lines have been built complete as far as Hunt's corner, north of Merrifield, and will be furnished when the frost is out of the ground. The farmers of the vicinity did the work, hiring Mr. Mattson of Hubert, an expert telephone man, to help.

The rural lines of the Brainerd exchange serve 560 subscribers at the present time. A slight change has been made in the calling of rural subscribers. Heretofore the local operator took the call and passed it on to the rural operator. Under the new plan, the local operator puts the subscriber in direct touch with the rural operator, and the caller then gives the number, direct.

### WIDE DIVISION AMONG DEMOCRATS ON ITALIAN DEBT

Washington, Feb. 20.—(UP)—A wide division among senate democrats on the Italian debt settlement developed in a secret conference called by Senator Robinson, democratic floor leader, today.

After three hours the meeting adjourned without a decision having been reached and democrats take individual sides for and against the settlement on the floor as they please.

It was decided to back Senator Walsh, democrat, Montana, solidly in his efforts to obtain investigation of the Aluminum Company of America, controlled by Secretary of the Treasury Mellon and his brother, R. B. Mellon.

### JUSTICE MILL OPERATES WITH GREASED WHEELS

Faribault, Minn., Feb. 20.—(UP)—The machinery of justice operated on oiled wheels here today when Karl Mielke, alleged embezzler was brought to trial.

Mielke, who arrived only this morning from Augusta, Mich., in charge of local officers pleaded guilty in municipal court here to a charge of embezzling \$1,600 from bankers.

He was rushed to Owatonna to appear before Judge Fred W. Senn in district court and it is expected that sentence will be pronounced and Mielke will be on his way to prison today.

### CONVICTED OF SLAYING MAN IN BLIND PIG

Detroit, Mich., Feb. 20.—(UP)—Convicted of slaying Irving Hanson, Racine, Wis., man, in a blind pig here January 7, John Ryan, 38, has been sentenced to life imprisonment at Michigan state prison at Jackson. His defense was drunkenness.

says R. F. Foster, the internationally known authority on bridge, in his new book

## "The Coming Faith"

"Our present beliefs, collected under the name of Christianity, were absolutely unknown two thousand years ago, and will probably be unheard of two thousand years from now," according to this author. Everyone from orthodox Christian to out-and-out atheist will want to read this prediction of a new religion to come.

HEDDA HOYT TALKS ABOUT  
THINGS THAT INTEREST THE  
BUSY WOMAN OF 1926

## FURS

By HEDDA HOYT  
(Written for the United Press)

New York, Feb. 20.—The fur coat begins to look a bit dilapidated at this time of the year. Still one can't send it to the furrier to be renovated these cold days and so the home treatment is one's alternative.

So much depends upon the daily care of furs. Very few women realize that a coat should be fluffed up after each wearing. It is also a good plan to fluff it before wearing. It should always be immediately hung up on a hanger when not in use and it should have sufficient space so that it is not crushed by other garments.

Heavy shaking is very bad for most furs. This tends to break the skin and loosens the fur. Brushing is all right for some furs but for others it is the wrong treatment. One should fluff a fur garment as one fluffs a sofa pillow. If the fur has been rained on one should never attempt to brush it but it should be hung in a fairly cool room to dry slowly and after it is thoroughly dried one can brush it gently with a soft brush to set the hair in place.

Perhaps fox and beaver are the hardest furs to keep in condition. Fox becomes matted and beaver gets a greasy aspect. I have seen furriers use a coarse wire comb on fox scarfs to good advantage. This loosens up the matted fur and does not pull too much of it out. The best treatment for beaver that has the greasy appearance is to rub cedar dust or even sawdust into the fur with the fingertips. The grease comes off with the dust and by applying this treatment two or three times the fur is as soft and fluffy as when new.

White furs should always be kept covered with white clothes bags to prevent them becoming yellow. White fox can be cleaned by rubbing cornmeal into the fur and shaking it out well after the rubbing. Some people use flour on white fox scarfs. The neck should always have a silk scarf when fur is worn to prevent the oil from the skin getting into the fur. This is a protection which will keep the collar in condition from season to season.

## "Black Ox" Superstition

In the olden days a black ox was sacrificed to Pluto, the infernal god, as a white was to Jupiter. Hence black ox came to signify misfortune, sorrow or adversity. To have the black ox tread on one's foot, means to be visited by death, or to know the meaning of sorrow.—Pathfinder Magazine.

## How Kind!

Landlady (to boarder who has been gloomily eyeing cold joint served up on a very cold evening)—You look absolutely perished with cold, Mr. Jenkins! (graciously). Don't be afraid of the mustard.—London Tit-Bits.

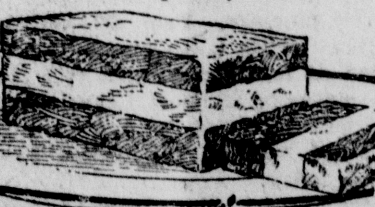

## Famous French Soldiers

Mousquetaires or musketeers were horse-soldiers under the old French regime raised by Louis XIII, 1622. This corps was considered to be a military school for the French nobility.

## Daddy's Evening Fairy Tale

A MARY GRAHAM BONNER

### AMONG THE BIRDS

"I can repeat sentences after people, said the parrot in the bird house of the zoo.

A Very Beautiful Cockatoo.

"I have become very tame," said the parrot. "So have I," said the cockatoo, a very beautiful white cockatoo. "Chirp-chirp, peep, peep," said the canaries in chorus, "we have become tame, too."

"We sit on the keeper's fingers and we kiss him and take seeds from his lips, and we sing all the time to show how happy and contented we are. They sang after they had said this to prove that they were very, very happy."

They were very pretty and bright, gay, yellow in color, and most of them had lovely voices.

"Of course," said the blue solitaire bird, "I am the finest singer."

"I don't like to boast, but that is the truth. The keeper says so."

"But please, dear bird friends," he continued, "don't think I am conceited."

"I only want to show that I like the big bird house here, and that I am very happy—so I prove it by singing and singing my best."

"Your best is very fine," said the Virginia Cardinal bird.

"Thank you, thank you," said the solitaire bird. "Ah, how good the keeper is."

"He knows that when I am free I like fruit and wild berries, and he gives me bits of these here just as I would take them if I were free."

"He gives me delicious little tastes of bananas, too."

"Ah, woe is me, I'm sad," said the Scarlet Tanager bird.

"What's the trouble?" asked the Virginia Cardinal.

"I always lose my gorgeous red coloring in the zoo. I fade and am not nearly so bright and gay and brilliant as I would be if I were free."

"It would appear as though I did not like the zoo. But I do."

"It's just that I must be flying in the big world in all the sunshine and having lots of room and exercise in order to keep my coloring."

"I am not really scarlet any more."

"Oh, yes, you are," said the Virginia Cardinal. "You aren't as scarlet as you were, but you are still very, very lovely."

"Thank you kindly," said the Scarlet Tanager, and then added:

"Well, you're a nice, friendly bird, and the keeper says he loves his dear, tame Virginia Cardinal with his bright and intelligent eyes."

"So every bird in the bird house of the zoo felt happy."

But outside, in another bird cage and yard, sat the vultures. They were thinking.

"It doesn't matter," thought the Black Vulture, "what the other vultures think."

"They don't interest me. I like to hunt. I like to eat, and the more

awful the meal the better I like it. I will eat the most horrible of food and enjoy it."

"A nice killed chicken I also enjoy among other things. I haven't a silly, fussy appetite."

"Neither have I," thought the King Vulture. He was thinking that he was like the black vulture, only greater, and he was the only vulture that could possibly have been called handsome. He was quite satisfied with himself.

"It is because I am a king," thought King Vulture. "I am a horrible sort of a king of horrible birds, and we fly in the air so we can do our horrible deeds with more ease."

"When people come to the zoo and look at my fine crown I often wish I could say to them: 'Oh, people, you may think I have a bad face, but I am a king vulture just the same.'"

The Scarlet Tanager.

### Would Be a Grandpa

Warren is devoted to his daddy, and it was almost more than he could stand when his father went out of town to work. He talked of him continually, and it seemed as though the week-end that daddy should come home would never come.

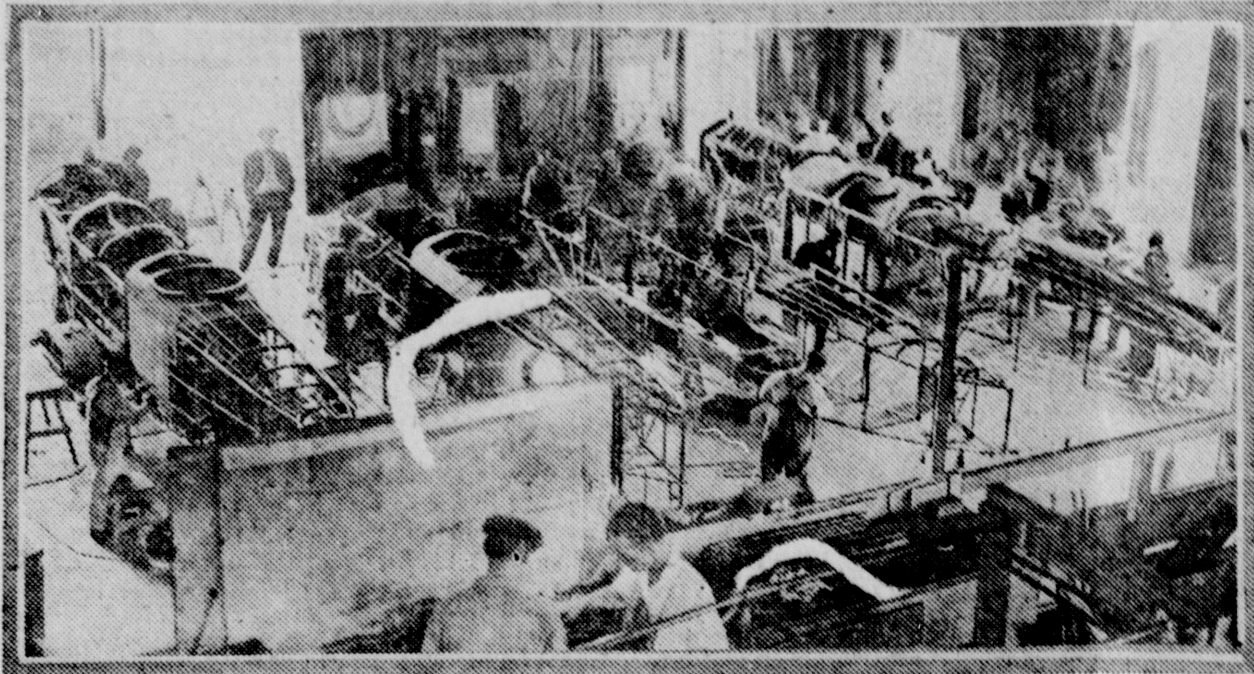

One day he heaved a great sigh and said: "Oh, dear, I guess daddy will be a grandpa when he comes back."

### Just Looked Big

"Johnny," said the father of a precocious five-year-old at the dinner table, "don't you think that is a pretty big piece of cake for a boy of your size?"

"It looks big, papa," replied Johnny, but it's sponge cake and nearly all holes."

## CALIFORNIA AIRCRAFT PLANT WHERE FLEET OF PLANES IS BEING BUILT FOR FAST GROWING AIR MAIL SERVICE

Above is pictured a scene at the Douglas aircraft plant at Santa Monica, Cal., where a large staff of mechanics is constructing a great fleet of airplanes for the U. S. Air Mail Service. With the extension of the service, hundreds of planes are being completed in order to maintain the high standard.

## SCIENTIST SAYS WORLD WILL LAST QUITE A WHILE

Chicago, Feb. 20.—(UP)—There is no need to hurry to wind up your affairs for fear the world will end. Our world is a mere infant, having been in existence only two billion years and still has 500,000 times that number of years to whirl through space. Professor F. R. Moulton of the University of Chicago thus estimated today.

Geologists estimate that the average life of a planet such as ours is 1,000,000,000,000,000 (one quadrillion) years, Professor Moulton said.

The end will come in a whirl of smoke like the light from a candle, he said.

## Little Extra Grain Will Give Increased Returns

A little thought to the feeding of fall-freshened cows will be well repaid in increased returns. Too many cows freshen in poor condition and cannot be expected to yield a good return. To begin with, a dry period of least six weeks is essential to enable the cow to build a reserve. How the cow is fed during this interval will largely determine her production after she freshens. A little extra grain at this time means dividends later. Freshening in good flesh the cow starts her lactation at a big advantage.

Production can be held up with economy by supplementing pasture with ground barley, equal parts ground oats and corn chop. This grain should be fed at the rate of one to five pounds of milk as long as the pasture is good. Don't expect the milk flow to increase materially, but it will hold up over a much longer period of time when prices are good, and therefore more than pay for the grain consumed.

## Cost of Wintering Young Heifer Varies Greatly

The feed required in raising as well as the cost of this and other items of expense will vary considerably with different localities. In winter there is no better ration than legume hay, silage and sufficient grain to keep them thrifty and growing vigorously, without becoming too fat. The ration should supply plenty of protein and hence unless a liberal amount of good clover or alfalfa hay is fed, a grain allowance in this element should be supplied. Heifers over ten months of age, especially of the larger breeds, may make satisfactory gains on silage and legume hay alone if of good quality. Results of tests conducted at experiment stations give yearling heifers as requiring from 700 to 800 pounds of hay along with skim milk and other feeds necessary to keep the animals in a growing thrifty condition. In regard to the cost of wintering the heifers this will vary according to the conditions in the neighborhood, such as quantity and costs of feeds and other factors.

## Dairy Facts

Regularity in feeding and milking is essential to profitable dairying.

Many an epidemic of diphtheria, scarlet fever, and typhoid fever has been traced to a case of illness on the dairy farm.

The various dairy utensils used by the dairyman are probably one of the most important sources of the bacterial contamination of milk.

Adequate ventilation removes foul air, removes excessive moisture and furnishes a supply of pure, fresh air. All three are vital to the welfare of the herd.

In order to do its work properly, the cream separator must be level and must be securely fastened to its foundation, the bearings must be well lubricated with the right kind of oil, and no accumulation of dirt can be permitted to collect in the working parts.

Johnny Hines and Mildred Ryan in "The Live Wire"

## Johnny Hines Declares That People Want Thrills With Laughs

"If you want to make 'em laugh, mix thrills with the fun."

That is the principle upon which Johnny Hines, premiere comedian of the screen, proceeds when he starts to make a picture.

"The days of the 'parlor comedy' have passed," is his verdict. "At one time it was possible to entertain audiences with 'polite' situations, such as the Sidney Drew productions. They were good, but public taste is constantly changing, and now the vast army of motion picture

lovers are not content merely to laugh.

"They want chilling thrills along with the fun. They want to laugh and gasp at the same time. That is why the making of film comedies is becoming a harder task day to day."

"Take the case of 'The Live Wire,' showing at the Lyceum on Sunday and Monday. The story promised an endless succession of laughs, but we had to change it to fit the public taste. So the people who will see this picture, which is the first I have made under my new starring contract with First National Pictures, Inc., will get their fill of thrills also."

## RADIO OPERATOR AT POST 48 HOURS DURING RESCUE OF 25 FROM THE ANTINOE

Kenneth Upton, chief radio operator on the United States liner President Roosevelt, kept at his post for 48 hours after picking up the S O S of the British freighter Antiope in mid-Atlantic. After receiving the call for help he located the sinking vessel by means of his radio compass. Not only did he keep in communication with the Antiope as long as possible, but he reported the rescue operations of the President Roosevelt during the three-days' battle in stormy seas.

## U. S. SHOULD OWN ITS EMBASSIES

THE United States should own its own embassies. A bill has been introduced in Congress which would give the secretary of state power to buy sites for the embassies and legations in foreign capitals.

Any man at all acquainted with the makeshift fashion of America now shown in regard to embassies will freely endorse the bill. Secretary of State Kellogg favors the bill. He has this to say:

"The United States maintains fifty-one diplomatic missions abroad. Only fourteen are housed in government-owned buildings. Two additional buildings are in course of construction. In capitals such as Berlin, Rome, Buenos Aires, Brussels, Stockholm, The Hague, Vienna, Budapest, Warsaw and Lima, the American diplomatic representative occupies rented buildings for offices and residence and receives no allowance for the cost of his residence. It is still true that no man who is not comparatively wealthy can be an ambassador or minister of the United States in most foreign capitals.

No matter how able a man may be, how learned in international law and diplomatic history, how skilled in negotiation, or how representative of the best American culture, he is not eligible for appointment to most of the great diplomatic posts unless he has a large private fortune."

That is why, at one time, the late President Wilson declined appointment as ambassador to England. That is why many a man just fitted for a foreign post, who has the culture, the business education, and even speaks the language of the foreign country, cannot accept the post because he cannot afford the financial strain involved in keeping "up the front" which Europe demands of such a representative.

It is high time that the United States quit paying rentals which in many cases would have bought the embassy property, or in expecting its ambassador to rent an expensive home and for the sake of glory and style make inroads on his private fortune. It is expecting too much of the ambassador appointed, and it is also keeping a lot of good men out of the service whose purse cannot now afford acceptance of such office.

## PAYING HEED TO "STOP" CROSSINGS

MIKE HOLM, when he sends your license tag for your car, encloses a notice from the State Railroad and Warehouse Commission calling attention to the "Stop" crossings.

Pursuant to Chapter 336, session laws of Minnesota for 1925, certain railroad crossings throughout the state have been designated "Stop" crossings. The crossings have been marked by signs. A full stop by all automobiles is required at crossings so marked. Black letters have been painted on a yellow background.

The law further provides that the speed of all vehicles approaching any crossing shall be reduced to such a rate that it can be brought to a full stop in case of necessity before reaching the nearest rail of the railroad track and to cautiously proceed over said crossing.

Vehicles carrying school children, explosives or inflammable liquids or passengers for hire, or any truck or vehicle having in tow any other vehicle or equipment, or any vehicle of a tractor or caterpillar type shall be brought to a complete stop before crossing the railroad tracks.

A penalty is provided for violation of the law and the regulation thereunder. The object of the law, of course, is to protect the occupants of the automobile as well as the traveling public in general.

If automobile drivers will co-operate in the observance and enforcement of this law and its regulations, death and injury from grade crossing accidents can be materially reduced in Minnesota. Such a result is well worth effort on the part of us all.

## PERSONAL LIABILITY FOR PREVENTABLE FIRES

A RECENT case tried in Cincinnati resulted in a jury awarding \$500 damages for the city against one Jacob Brand, for the cost of extinguishing a fire due to failure to obey a fire prevention order. This was the first case of its kind under a new ordinance which imposes upon property owners the cost of putting out fires where they are due to failure to obey fire ordinances or fire prevention orders of the department.

Interest in the case centers upon the arguments presented in support of the ordinance. The attorney for the city emphasized the fact that the cost of extinguishing the fire would not have been incurred if the property owner had obeyed the orders of the fire department. He pointed out the greater danger to the public welfare while the department is out on the call, in that the other property owners were without protection while the apparatus was out.

The matter of personal liability for fires is one that might well receive greater attention than it generally does. The careful property owner should not be penalized for the carelessness of another.

The enforcement of such a law as is in force in Cincinnati has been working well abroad, but the idea has not as yet been generally adopted in this country.

K. G. CRAWFORD succeeded D. D. Meredith as St. Paul United Press manager shortly after the new year. Mr. Meredith will devote his entire time to United Press business affairs in the Upper Mississippi valley. Mr. Crawford got his United Press training at Lansing and in the Chicago office.

LEADING officers of the Northwest Daily Press association were re-elected at the annual meeting held in Minneapolis. Fred Schlipin, publisher of the St. Cloud Daily Times, was re-elected president, and Ed LaFond of Little Falls was re-elected secretary-treasurer.

T. B. WALKER of Minneapolis has donated to the village of Akeley a lake shore tract for a tourist park. Akeley was the scene of Mr. Walker's early lumbering activities and he has always felt kindly disposed toward the town.

A FEW more weeks and the lure of the lakes will be getting in its work.

## CANNING MEATS AT HOME IS IMPORTANT

Meats Must Be Canned in the Steam Pressure Canner.

(Prepared by the United States Department of Agriculture.)

The canning of meats on the farm has become one of the most important methods of food preservation. Only meats that have been freshly killed and cleanly handled should be preserved in this way. The United States Department of Agriculture recommends that the steam pressure canner should always be used. A high temperature of 250 degrees Fahrenheit, equivalent to a steam pressure of 15 pounds per square inch, is required to sterilize meats properly and prevent spoilage.

In selecting a pressure canner the following points should be carefully checked: A pressure canner should be strongly built and the top should clamp on tightly so that there is no leakage of steam when it is closed. There must be an air outlet with a pet cock and the top should be equipped with a pressure gauge, a thermometer, and a safety valve. Since the temperature is a measure of the pressure, it is ordinarily assumed that one can be interpreted in terms of the other. It is better, however, to have both a gauge and a thermometer, for the one serves to check the accuracy of the other. In size a pressure canner should be suited to the kind of containers and the probable number to be handled at one time. In case the canner must be lifted on and off the stove during canning, it is also important that it should not be too heavy.

## Directions for Canning.

After slaughtering, the meat may be prepared for canning as soon as the animal heat has disappeared. The directions below are given for canning roast pork, but they may be applied to similar cuts of beef or lamb. The meat should always be cooked and seasoned before it is canned—whether it is roasted, fried, baked, or stewed—just as though for immediate serving, so that the flavor will be retained. It need not be cooked tender but it should be cooked until the center is no longer red. Pack the meat as hot

as possible. Remove all bones and fill up the jar or can with hot gravy stock, so that the sterilization period will not be longer than necessary.

Either glass jars or tin cans may be used for canning meats. Full directions for each step in the process in either case will be found in Farmers' Bulletin 1186, "Pork on the Farm," and also recipes for preparing the various parts of the hog in different ways for canning. The flavoring and proportions in these recipes may be varied to suit individual taste, but the length of time and temperature for the processing period of each meat or mixture should never be changed.

## How to Can Roast Pork.

The ham, shoulder or loin of pork is generally used for roasting. Scrape the skin clean and wipe it with a damp cloth. If the ham is used and the skin is left on, cut with the point of a knife just through the skin so as to dice it, and trim with cloves and tufts of parsley if desired. Salt and pepper to taste should be sprinkled over the ham. Heat in a roasting pan from two to three tablespoonfuls of grease. Put in the roast when this is hot and sear it quickly all over to seal the pores and prevent loss of the juice of the meat. Add two small turnips to the roasting pan and from one-half to one cupful of boiling water. Leave skin side up and do not turn, but baste frequently. When cooked through and nicely browned, slice and pack in cans or jars to within one-half inch of the top of the can. Add the gravy from the roasting pan, or soup stock, so that it barely covers the meat. There must be at least one-quarter inch space between the gravy and the top of the can. Close the can or jar, and process in the steam pressure cooker. No. 2 cans or pint jars are processed for 45 to 50 minutes at 250 degrees Fahrenheit or 15 pounds of steam pressure. No. 3 cans or quart jars from 55 to 60 minutes at the same pressure. In case the meat is fat time for processing must be prolonged 10 minutes.

## BIG DIFFERENCE IN FLOUR TYPES

## Increased Use of Soft-Wheat Will Help Prices.

(Prepared by the United States Department of Agriculture.)

It behooves the housewife to learn to tell the difference between hard-wheat and soft-wheat flours, and to know the particular use for which each is best adapted. With this knowledge she can then select a flour well suited to her needs often at a distinct saving in price and to the benefit of local industry.

The United States is now growing about as much hard wheat as it can economically. The increase in the production of baker's bread and in the use of machine mixers in the bake shops, has greatly increased the demand for the hard-wheat flours. Their higher gluten content gives them greater ability to absorb water and to stand the severe "punishment" given the dough by power machinery.

For many home uses, soft-wheat flours are just as good or better than the hard-wheat. It is easier to make tender cake and flaky pie crust with soft-wheat flour. For thickening sauces, gravies and the hundred and one other small household needs one kind is as good as another. The housewife can thus by greater use of soft-wheat flours, help in stabilizing demands and prices.

The housekeeper, however, sometimes has difficulty in telling what type of flour she is buying. The United States Department of Agriculture suggests the following simple tests for distinguishing hard-wheat and soft-wheat flours:

The flours from soft wheats have a velvety texture somewhat like cornstarch, and those from hard wheat are usually more gritty, but it requires some experience and a fine sense of touch to detect this difference. Experts usually do it by taking a pinch of flour and rubbing it lightly between the thumb and the third finger. Another way to tell is by squeezing a handful of it tightly and noticing whether the hand is opened the flour remains in a mold and shows the impression of the fingers. In this test a hard-wheat flour acts more like

a powder and the mold breaks up more readily than that of a soft-wheat flour. Weighing is still another method used to distinguish hard-wheat flours from soft. A quart of hard-wheat flour that has been sifted once,

Bread Made of Soft-Wheat Flour.

sifted lightly into the measure, and then leveled off, weighs about sixteen or seventeen ounces or even more. A quart of soft-wheat flour sifted and measured in the same way weighs only about fourteen or fifteen ounces.

## New Dessert Combination Favored in New England

Ice cream served with hot Indian pudding may be a new idea to many people, but it is a favorite combination in New England, and is worth a trial anywhere. Use vanilla ice cream and make the pudding in the following way, recommended by the United States Department of Agriculture:

**Indian Pudding.**  
5 cupfuls milk 1 teaspoonful of 1-3 cupful of corn salt  
1 meal 1 teaspoonful of 1/2 cupful molasses ginger

Cook the milk and meal in a double boiler 20 minutes; add the molasses, salt, and ginger; pour into a buttered pudding dish and bake two-hours in a slow oven. This serves about eight persons. The ice cream may be placed on the same plate with the pudding, or served in a separate saucer. If ice cream is not used, serve the pudding with cream.

## DAIRY

## SEPARATOR CARE QUITE IMPORTANT

Separating butterfat from the rest of the milk in a cream separator is a delicate process and lack of attention to details, which may seem unimportant, often causes considerable fat to be left in the skim milk, it is pointed out by A. L. Young of the University of Illinois. The manufacturer has done a commendable job in making a machine that will skim as accurately as does the modern separator when it is properly handled, and it should be given the sort of care that a high-class product deserves, he said.

In the operation of such a machine the little things count for more than when a machine of less refinement is being used. Consequently the experienced user will insist that the separator be kept level and fastened securely to a solid foundation, that all the bearings are lubricated with good separator oil, that all the old dirt and oil be cleaned out occasionally with gasoline or kerosene, that the machine be operated at the proper speed with the milk at the proper temperature, that the machine be washed thoroughly each time it is used and that it be protected from the dust and kept dry when it is not in use.

Too often the user fails to watch these points because even when the separator is sorely neglected it will continue to deliver a fairly good amount of cream at one spout and skim milk at the other. Users sometimes fail to realize that a separator which is even a little out of level or which has a bowl which vibrates or is partly clogged with dirt is very likely to send considerable butterfat out the wrong spout. To do good work a separator must be well built, run at the correct speed and kept in good running order.

Particular attention should be paid to the directions furnished with the machine. It should be remembered that delicate bearings operating at high speed will last a long time if they are properly cared for but that they are quickly ruined by dirt or lack of good oil when neglected.

## Feed Tags Are Serious Menace to Dairy Stock

"The cow's death was due to a punctured stomach caused by a piece of wire taken in with the feed."

Altogether, one meets such items in the dairy papers too often. And, too often it is the good cows and the bulls that die in that way. If one has examined the contents of a cow's stomach, he will be surprised that more do not die from the same cause. Nails, wire, pieces of glass, screws and pins are not uncommon.

Every sack of feed that is sold must carry a license tag and in many cases these tags are attached with a hook-shaped wire that is economical from the feedman's view and dangerous for the feeder.

In opening and emptying the sacks, it is sometimes easy for the tags to become detached and they at once fall into the feed where they are lost in the mixing. The hook has a sharp point and a round loop. This gives it a shape that is particularly vicious in a cow's stomach and is often fatal. For that reason, it is best to remove the tag and hook before the bag of feed is opened so there is no chance for it to work off in the handling. Under any conditions, it is imperative that one use the utmost care to prevent loss from this cause.

## Care at Calving Time

The cow that has just calved should

receive no feed for the first 24 hours—unless it be a bran mash. Many successful dairymen offer only a bucket of slightly warmed water during the first day. Feeding should be gradually increased over a week's time, and if the cow is a heavy producer, she should not be on a full ration for two or three weeks. Better underfeed than overfeed at this time. Light laxative feeds will also tend to prevent swollen udders and loss of appetite. Wheat pasture or wet beet pulp are valuable feeds for that purpose. Silage containing much grain should not be fed at calving time.

## Keep Out Bacteria

The udder and teats become contaminated when cows lie down. The movements of the udder during the milking process cause the particles of dirt to become loosened and fall into the milk. By keeping the udder and flanks well brushed, much of the loose hair and dirt are removed in one trial the average number of bacteria in milk before the udder and flank were wiped with a damp cloth, was 7,058 bacteria per cubic centimeter. After being wiped the number was reduced to 710 or a decrease due to wiping of 63.82.

## Dairy Notes

Quality, not quantity, is the important consideration in dairy farming.

Cleanliness is essential for the best results, for the cows when in the barn will not thrive in filthy quarters.

Among New Year resolutions, don't omit the one about individual cow records.

## Helps to CM Age

Another general aid to longevity is the fact that the good die young.—Akron Beacon Journal.

The correct missing words which you now see supplied in the opposite ad are,

## HEAT HAYES-LUCAS SPECIAL

Nine correct answers were received out of attempts made by hundreds of children, but as announced in this space previously, the first three correct answers received would be declared the winners for first, second and third prizes according to the order in which they were received.

First cash prize of \$2.50 won by Rudolph Drieling, 611 2nd Ave. N. E.

Second cash prize of \$1.50 won by Aileen Barnes, 820 6th Ave. N. E.

Third cash prize of \$1.00 won by Catherine Bingham, 1008 Rosewood St.

Many thanks, kids, for the fine response in this contest. You may be the lucky one next time.

# SERVICES in the CHURCHES

**Peoples Congregational Church**  
Sunday school, 10.  
Evening service, 7:30. Sermon by the pastor.  
Prayer meeting Thursday, 7:30. N. P. Olmsted, Minister.

**Bethlehem Evangelical Church**  
(Corner Main and Bluff)  
J. H. Bollens, Pastor  
10:30 A. M.—English service.  
11:30 A. M.—Sunday school.  
Wednesday at 8 P. M., special Lenten service.

**First Presbyterian Church**  
Alexander G. Patterson, Pastor  
9:30—Our Primary.  
10:30—"Back of Christ."  
12 M.—Our main school.  
3 P. M.—Junior C. E.  
6:30 P. M.—Intermediate C. E.  
7:30—"After An Awakening."  
That services that encourages.

**St. Francis Catholic Church**  
402 North 9th St.  
Sunday services—  
First Mass, 7:45 a. m.  
Second Mass, 9 a. m.  
High Mass, 10 a. m.  
Holy Hour, 7:30 p. m.  
Baptisms, 1:30 to 2 p. m.  
Instructions at all services.  
Rev. Fr. James Hogan, pastor.  
Rev. Fr. Michael Enright, assistant pastor.

**Christian Science Society**  
Services are held in Iron Exchange Hall, Iron Exchange Building.  
Sunday school, 10 A. M.  
Sunday service at 11 A. M.  
Topic: "Mind."  
Wednesday evening Service, 8 P. M.  
Reading room, Iron Exchange Hall, open Tuesdays and Thursdays from 3 to 5 p. m. Also Wednesday evening and Sunday morning.  
All are welcome.

**Swedish Baptist Church**  
10:30—Morning worship (Swedish).  
11:45—Sunday school.  
7:45—Evening service of song and sermon in English.  
Tuesday evening there will be a social of the Willing Workers in the church with a good program and refreshments.  
Prayer meeting on Thursday evening.

**Swedish Bethany Church**  
Morning worship at 11 A. M.  
Evangelist Herman G. Johnson will preach.  
No evening service.  
Sunday school at 9:45 A. M. This Sunday is "Girls' Sunday" and all should make an effort to be there.  
Christian Endeavor at 6:30 P. M. Ellen Erickson—Leader.  
Prayer meetings on Tuesday and Thursday evenings.  
P. G. Fallquist, Minister.

**Zion Lutheran Church**  
Missouri Synod  
(Corner Main and Broadway)  
10:30 A. M.—English divine services.  
Wednesday evening at 7:30 Lenten services.  
The Ladies' Aid meets on Thursday at the usual time and place.  
Religious instruction for children every Friday at 1:30 P. M.  
F. C. Rathert, Pastor.

**Norwegian-Danish Lutheran Church**  
Sunday school, 9:30.  
Bible class, 9:45.  
Divine services in the Norwegian language, 10:30.  
Confirmation instruction every Saturday afternoon at 1:30.  
On Friday evening, February 26, the Young People's Luther League will meet in the church. A good program will be rendered and refreshments served after the program.  
Hostesses are Mrs. C. N. Olson and Mrs. E. H. Lawrence. A cordial invitation is extended to everybody.  
O. L. Bolstad, Pastor.

**First Congregational Church**  
Church school, primary and junior departments, 9:30; young people's department, 12.  
Morning worship, 10:45. Subject of sermon: "Jesus' Teachings About Sin." This is one of a series on "The Teachings of Jesus on Great Life Problems."  
Pastor's class, 4.  
Christian Endeavor, 6. Leader—Kathryn Allbright.  
Tuesday evening, 7:30, mid-week service. This is the first of a series of Lenten studies in the Gospel of John.  
N. P. Olmsted, Minister.

**First Baptist Church**  
The Church of the Cordial Welcome  
9:45 A. M.—Sunday school. Every member of the church and school are urged to remember the contest and be on time. We have made a good start. Help it along.  
11 A. M.—Morning service.  
6:45 P. M.—B. Y. P. U. Richard Holland will speak at this meeting.  
7:45 P. M.—Evening service.  
At both the morning and evening services, Richard Holland, the state

## DR. ROY SMITH'S SATURDAY NIGHT TALKS

By the REV. ROY L. SMITH, D. D.  
Pastor Simpson M. E. Church, Minneapolis

### SUBJUNCTIVE HEROES

The world is full of men who ought, could, would or should have succeeded but did not. Their chief stock in trade now consists of alibis—good reasons why they should have failed.

The average man will go to more trouble defending his failures than in proving his right to success.

The world is full of anonymous heroes who had excellent excuses but did not use them.

The determination to succeed is more valuable than any political pull, inherited wealth, social prestige or college degree.

The price of an education is the desire for one in a sufficient measure. The best pull in the world is dependability in an emergency.

The worst handicaps the average man faces are removable by hard work and persistent effort.

The most damaging reports on our prospects are those we give ourselves when we hunt for some good reason why it cannot be done.

The community can erect schools, hire teachers, equip buildings and pay taxes, but it avails us nothing until we give applied effort to the day's lessons.

General McClellan, during the Civil war, had dallied with opportunity for months to the disgust of the north and to the irritation of Mr. Lincoln.

At last the president wired to General McClellan: "If you are not going to use the army for a few days, I would like to borrow it for a little work I want done."

McClellan was a subjunctive hero—always telling what he could do, what he would do, what other should do, etc. In the meantime his own army was idle.

The church, in the average community, could stir the people to great achievements for righteousness if it dared to challenge them with its divine mission.

The lawkeepers of the community have been so sympathetic with the poor lawbreaker who has been caught in the toils of the law that they have nullified much of the force of the law. Let them now assert the doctrine without fear or favor that all law must be obeyed, and with strictness and loyalty. We can yet become law abiding.

American industry need not be the periodic victim of labor struggles and industrial war. Let fair minded men band themselves together to demand that this much of the millennium shall come to pass.

Putting oughts in the place of duties, coulds in the place of successes, woulds in the place of wills, and shoulds in the place of musts is making us a nation of subjunctive folk.

Let's change our mood!

Young People's worker, will speak. He is here in the interests of the Baptist young people of the city and will hold a rally, followed by a social hour at the First Baptist church on Saturday evening at 7:30 o'clock.

He is a man with fine messages that will be full of interest for both the church members as well as the young people at both services on Sunday. Come and hear him.

On Thursday evening there will be prayer meetings held at various homes of the members, announcement of which will be made Sunday.

The finance committee urgently requests that the pledges for current expense and missions be paid in full as rapidly as possible.

**The Salvation Army**  
Holiness meeting, Sunday, 10:30 A. M.  
Sunday school and Bible class, 2:30 P. M.  
Young People's meeting, 6:30 P. M.

**Week Meetings**  
Tuesday, Soldiers' meeting, 8 P. M.  
Thursday, open air meeting, 7:30. Inside, 8 P. M.  
Saturday, open air meeting, 7:30. Public praise inside, 8 P. M.  
All are welcome!  
Capt. F. Petrie and Lieut. Edwards in charge.

**The Evangelical Church**  
Sunday school at 9:45.  
Morning worship at 11.  
Theme: "Thorns vs. Grace."  
Senior E. L. C. E. at 7:15.  
Leader—Dorothy Shepherd.  
Evening service at 8.  
Teachers' training Wednesday at 7:30.  
Prayer meeting Thursday at 8.  
Religious instruction Friday from 1 to 3.  
Sunday school night Friday at 7:30 in the basement.  
The younger organized classes will have charge of the arrangements and a good program is being prepared.  
L. F. Strothman, Pastor.

**First Methodist Episcopal Church**  
Sixth and Juniper  
Morris L. Eversz, Pastor  
Mildred Skauge, Organist  
Mrs. A. E. Hagel, Musical Director  
Public worship at 10:30 A. M.  
Theme: "The Promises of God an Incentive to Holiness." The choir sings Ashford's "Tis God's Hand That Leadeth Me." Prelude, an "Aria" by Beethoven. Offertory, "Theme," by Tchaikowsky. Postlude by Scutson Clark. Mrs. Niles at the piano.

**Church Bible school at 12.**  
Evening service at 6 P. M. Young people's choir sings. Sermon to boys and girls together. Epworth league devotional. Questionnaire on study book by Miss Alta Franklin. Helen Lammon gives an interpretative reading on "The Children of Mexico."  
Monday evening, Scout Troop No. 1. L. Ericsson, S. M.  
Wednesday, prayer meeting at 8 P. M. with Mr. and Mrs. Ben Anderson; none at the church. Thursday evening, senior choir at the church.

Friday evening, adult department business and social at the church.  
Saturday at 10 A. M., pastor's instruction class.

**Clara Lutheran Church**  
August Samuelson, Pastor.  
Sunday school—9:30.  
Services (English)—10:30.  
Vocal duet by Dr. C. E. Anderson and R. N. Lindberg.  
Services (Swedish)—7:45. Vocal solo, Ellen Berglund.  
On Monday evening the Luther league will hold a parcel sale in the church parlors. Let us all encourage our young people in this undertaking and make it a great success. Refreshments and a social hour will be enjoyed after the sale.

On Thursday evening the Missionary society holds its regular monthly meeting.

**AT PILLAGER**  
Confirmation class meets at 1:45. Services at 3.

**Full Gospel Assembly**  
1/2 A. Street N. E.  
SUNDAY  
2 P. M.—Sunday school and Bible class.  
3 P. M.—Sermon by Rev. Herman G. Johnson.  
7:45—Sermon by Rev. Herman G. Johnson.

MONDAY, 7:45 P. M.  
(Washington's Birthday)  
Special service (English every night).  
Special evangelistic service every night at 7:45.  
Rev. Johnson will speak every night.

All true Christians of Brainerd are urged to pray earnestly for a real heaven-sent revival in this city. Everybody is welcome to all services.

Special invitation to all ministers of Brainerd.  
Good music. Good singing.  
Henry H. Ness, Pastor.

**Bethlehem Lutheran Church**  
South Seventh Street  
J. R. Michaelson, Pastor  
First Sunday in Lent—  
Morning worship in the English language at 11 A. M. Anthems by the junior choir.  
Sunday school and Bible classes at 10 A. M. Carl Anderson, Supt.  
Evening worship (English) at 7:45 P. M. The church choir will sing.  
Tuesday evening at 8 o'clock, the Bible hour.  
Regular meeting of the Junior Young People's society Wednesday evening at the church assembly rooms. The program begins at 8 o'clock. Hostesses—Mrs. Andrew Holm and Mrs. Gilbert Antonson.  
Thursday evening at 6:30, banquet by the Men's club, celebrating its tenth anniversary. Program and the annual business meeting with election of officers.  
Friday evening, choir rehearsals. The junior choir at 7, the church choir at 8.  
The confirmation class meets for instruction Saturday morning at 10.

**St. Paul's Episcopal Church**  
Seventh and Juniper Streets  
Robert James Long, Rector  
Services for Sunday, Feb. 21, the first Sunday in Lent—  
Holy communion—8 A. M.  
Church school—10 A. M.  
Morning prayer, litany and sermon—11 A. M.  
The special week day Lenten services are as follows:  
MONDAY  
Children's service and instruction—4:15 P. M.  
TUESDAY  
Holy communion—10 A. M.  
THURSDAY  
Penitential office and sermon by the Reverend G. G. Curtis, rector of Christ Church, Crookston, 7:45 P. M.  
FRIDAY  
Confirmation instruction—4:15 P. M.  
The public is cordially invited to all of these services.

**Many Cases of Grippe Reported in Brainerd**

Local People Urged to Use Vigorous Measures to Combat Further Spread of Deep Grippy Colds.

**PNEUMONIA CHIEF DANGER**

Grippe Attacks Weaken Body's Resistance to Germs of Pneumonia—All Colds Should be Treated Promptly.

Deep grippy colds have been unusually prevalent here this winter. The situation is fairly general throughout the States. In some sections these colds are called "influenza," but the majority of health officers report that they are much milder than the original epidemic and resemble more closely the old-fashioned la grippe. They are usually accompanied by a headache or aching feeling over the body, "running of the nose," sneezing and frequently by gastric and intestinal complications such as hiccoughs, nausea, diarrhea, etc.

Colds are too often neglected until they have lowered the vitality sufficiently to permit the lurking germs, which cause pneumonia, bronchitis and influenza, to attack the body.

**Don't Take Chances**

The only safe plan is to attack a cold right at the beginning. A hot foot bath, a laxative, a sweat and a vigorous application of Vicks Vapor-Rub at bedtime over throat and chest will often break up a cold over night.

For hours after Vicks is applied the vapors of camphor, menthol, eucalyptus, thyme and turpentine, released as vapors by the body heat, are inhaled directly into the infected air passages. At the same time it warms and stimulates the skin like a poultice, "drawing out" the soreness and pain.

It is an obstinate cold indeed that can resist this direct, double action.

**Vicks Vapor Steam**

If the air passages are badly stopped up, try the "teakettle and tent" treatment. This method—fully explained in the directions—consists, briefly, of vaporizing Vicks in a teakettle and arranging a newspaper "tent" over the patient's head so that the combined warm steam and medicated vapors can be inhaled.

Mothers especially appreciate Vicks for the frequent colds of children, as it can be used freely and often, without disturbing the digestion—you "just rub it on." Over 21 million jars are used yearly.

**Savory Kitchen Bouquet**

Adds rich color and delicious flavor to soups, gravies, stews, sauces and meat dishes. Prepared from the aromatic juices of fresh garden vegetables. Pure, wholesome, nourishing.

**Mushroom Sauce**

3 tablespoonsful Kitchen Bouquet; 1/2 cupful butter; 1/2 cupful flour; 1 teaspoonful salt; dash cayenne; 1 teaspoonful onion juice; 2 cupsful milk; 1 can mushrooms. Melt the butter, add flour and milk gradually, stirring all the while. When cooked, add the salt, cayenne, onion juice and Kitchen Bouquet. Drain and chop mushrooms, add to sauce and cook three minutes.

**At good grocers everywhere**

If your grocer can't supply you send 10 cents for generous sample bottle.

Bottles containing many new recipes sent free.

## Ann, eat your breakfast

Here's cream taken from a bottle, and breakfast food got out of a box. I haven't tasted them yet, but I'm not afraid to ask you to eat. And in the bathroom is new tooth-paste to use on your teeth. Here's medicine to take before you start off to school. . . . Don't forget to wash your hands—that's a fresh bar of soap—and maybe dust your face with powder. No, it won't hurt the skin. This list of things I've seen advertised—stop and give it to your father. He'll bring them home tonight. Some of them old, some of them new . . . but what a civilized thing! To buy on faith and use on faith and never be betrayed!

Read the advertisements. Their honesty is as clear as a mirror. You can believe in them as surely as you believe in yourself. You can follow their directions with utmost faith. You can use their products with confidence you'll want to use them again. Theirs are facts proved and accepted. Use their news.

When guided by advertisements  
you can buy with faith

YANKEE TENNIS SUPREMACY GETS JOLT

BILL TILDEN, RICHARDS AND HUNTER DEFEATED

LEVELED IN QUARTER FINAL ROUND OF INDOOR CHAMPIONSHIPS

SURPRISING SWEEP SENDS FRENCH TEAM INTO SEMI-FINALS

By HENRY L. FARRELL (United Press Staff Correspondent)

New York, Feb. 20.—America's supremacy of the world on the tennis court, so pronounced for the last six years, has suffered an alarming blow in the defeat of William T. Tilden, Vinnie Richards and Frank Hunter in the quarter final round of the national indoor championships.

The surprising sweep which sent the French team, Rene La Coste, Jean Borotra and Jacques Brugnon into the semi-final and made a Frenchman an almost certain winner of the championships, does not mean all is lost, however, it does indicate that the day may not be far removed when France will be the ranking tennis nation of the world and the holder of the classic Davis cup.

There was nothing fluky about the conquest of the French stars. Borotra beat Tilden because he played better and smarter tennis and La Coste scored over Richards because he outclassed the New York youngster. Hunter fell before Brugnon for the same combination of reasons.

Perhaps it would be better not to view the future with alarm until the same players meet again next week in the international team matches, an indoor Davis cup affair. But if the American players do succeed in getting revenge, the concern for the future will not be removed.

The victories of La Coste and Borotra were not those of obscure players. They are two of the greatest youngsters in the game and their games have not been developed to their best. They are coming. Tilden and Richards may be going.

It is not within the memory of the oldest tennis official that three ranking players like Tilden, Richards and Hunter failed to reach the semi-finals of a National championship and as a matter of record it is the first time since 1919 that Tilden has been beaten in a National tournament.

America's futile hope to prevent a repetition of France's 1925 victory rests upon the shoulders of John Van Ryne, a Princeton freshman, whose presence in the semi-final rounds is as surprising as the shocks that happened yesterday.

Young Van Ryne has to play La Coste at 3 p. m. today, an hour later than Borotra and Brugnon, and if the dope follows La Coste as it did in the final round at Wimbledon in 1924 and 1925, he may win.

Sarmiente Wins Over Bell  
East Chicago, Ind.—Pete Sarmiente, Filipino boxer, defeated Archie Bell of New York, in a 10 round match here.

Minnesota Wins Dual Meet  
Iowa City, Ia.—Minnesota swimmers outclassed Iowa's team and won a dual meet, 44 to 25.

Wisconsin Winner in Swimming Meet  
Madison, Wis.—Wisconsin university defeated Chicago university in a dual swimming meet 39 to 30.

Northwestern 26, Chicago Y. 25  
Naperville, Ill.—Northwestern college defeated Chicago Y. M. C. A. basketball team, 26 to 25 by dint of a sensational last minute rally.

Ski Jumpers at Fox River  
Chicago—Ski Jumpers from Illinois, Michigan and Wisconsin will compete tomorrow in the final ski meet of the year at the Norge Ski club's slide at Fox River Grove, Ill.

Bylund Pins Down Demetral  
Madison, Wis.—Bobby Bylund, Minneapolis, middleweight, pinned Jimmy Demetral, Greek wrestler, in a one hour bout here last night with a headlock.

Wisconsin 2, Carleton 0  
Madison, Wis.—Wisconsin defeated Carleton college of Northfield, Minn., 2 to 0 in a hockey game here last night.

Fort Wayne K. C. 21, Milwaukee 17  
Milwaukee, Wis.—Taking the lead at the start the Fort Wayne Knights of Columbus defeated the Milwaukee professional basketball team, 21 to 17 here last night.

Unofficial World's Swimming Record  
Milwaukee, Wis.—An unofficial

world's swimming record for the 200 yard relay swim was broken here last night when the Chicago Athletic relay team swam that distance in 1:08:4-10. G. B. Brainerd also of the Chicago club set a new world's record for the 100 yard breast stroke negotiating that distance in 1:08:5-10. The records fell at a Central A. A. U. swimming meet at the Elks club here.

HELEN WILLS OVERWHELMS EDITH HARVEY

AMERICAN CONTINUES CHARGE THROUGH BEAULIEU TOURNAMENT

IMPROVEMENT IN HER GAME CALLED AMAZING BY CRITICS

Beaulieu, France, Feb. 20.—(UP)—Miss Helen Wills, American tennis champion, continued her charge through the Beaulieu tournament here today when she overwhelmed Miss Edith Harvey, England in straight sets at 6-1 and 6-0.

In passing through the semi final round, Miss Wills lost only two games in the tournament and the improvement in her game has been called amazing by the critics.

If the play follows form Miss Wills will meet Mrs. Phyllis Satterthwaite, England, in the final round tomorrow. Miss Wills is considered to have so much class on the field that there was little betting, as the odds on her were too overwhelming even for the brave.

Officials of the Carleton club probably will be asked to explain how speculators succeeded in getting so many tickets for the recent match between Miss Suzanne Lenglen and Miss Wills. The Riviera tennis committee, which is affiliated with the French tennis federation, is to start an investigation today about the method of handling the tickets and disposing of the privileges of the club. Count De Bourbel, president of the committee, will preside at the investigation and report his findings to the committee.

18 TEAMS IN GREAT DOG DERBY, 3RD LAP

LEADERS ARE CHREVETTE, DUPUIS, RUSSICK AND ST. GODDARD

RUSSICK RUNNING WITH FIVE HUSKIES, CHREVETTE WITH 4 HOUNDS

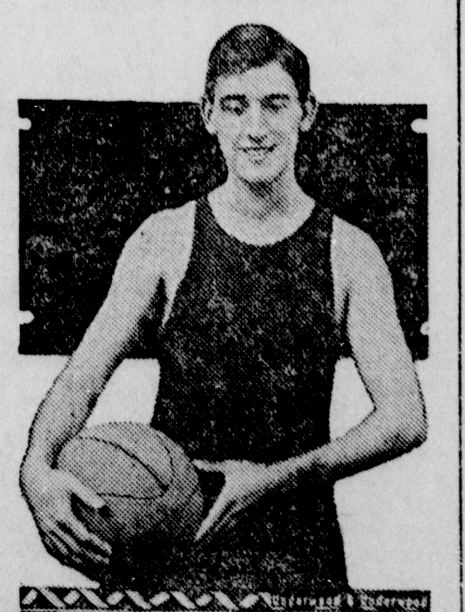

Ottawa, Feb. 20.—(UP)—Eighteen teams left the start today in the third lap of the great dog derby and faced a zero wind. They had 42 miles yet to go with George Chrevette, French Canadian idol; Frank Dupuis, Russick and St. Goddard only minutes apart on their mileage to date.

Russick today was running with five huskies, while Chrevette had four hounds and Dupuis six cross breeds.

Walden of Wonalancet, N. H., and Channing of Boston, were trying for place money but were no longer contenders for first place honors, while Earl Brydges, who looked likely on the first day had a 34 minutes' lead to overcome which seemed unlikely of accomplishment.

Up to 15 minutes from the finish the leaders' time was: Russick, 11:15:55; Dupuis, 11:16:25; G. Chrevette, 11:25:15; St. Goddard, 11:26:05.

Basket Ball Star

Catholic university of Washington, D. C., has a crack basket ball five this winter which is scheduled to meet some of the fastest college "fives" on the Eastern courts. The photograph shows J. Kenney, forward, and captain of the team.

HOCKEY IS DESERVEDLY POPULAR AS WINTER SPORT AT UNIVERSITY

Credit for a good deal of the popularity of the game of hockey with Minnesota fans must go to the University of Minnesota which had a championship hockey team in the field before either Minneapolis, St. Paul or the Range cities joined the professional league which has latterly been arousing so much enthusiasm. In 1922, the first year that hockey became a major sport at Minnesota, Emil Iverson in his first year as coach led his Minnesota sextet to victories over Michigan and Wisconsin that gave them a conference championship. Minnesota has won a majority of its games this year and has played two hard fought tie games with the Wisconsin team, which is coached by Iverson's brother. Left to right in the picture are shown Percy Flaaten, defense, Captain Ed Olson, center, and Heinie Kuhlmann, wing, all members of the 1926 Minnesota hockey team. They are three of Iverson's most sterling performers.

Use of the new downtown rink in Minneapolis rather than the former outdoor hockey rink on the University campus has been adding to the popularity of this coming college sport which western universities have adopted from the Canadian colleges and those in New England.

FOOTBALL WAR MAY BE SERIOUS

By HENRY L. FARRELL (United Press Sports Editor)

New York, Feb. 20.—Invasion of the New York field by Red Grange's team, or any other team without a National league franchise, will result in a football war that will be of serious consequence to the future of a young sport.

Tim Mara and Billy Gibson, prominent New York sportsmen, have a National league franchise that entitles them to territorial rights in the entire metropolitan district and they succeeded in having their fellow club owners reject an application that Grange made for a team to play in the Yankee Stadium.

If Grange goes through with his plans to organize another New York team, he will be called an outlaw by the league. He will call himself an independent with the right to dispute the authority and the jurisdiction of the league.

Some critics have likened the impending situation to that which developed in baseball several years ago when the Federal league went out to fight the National and American leagues, but there is a vast difference.

Organized baseball held the upper hand and wielded the whip because its authority was established by a ruling of the United States supreme court. The major leagues also had a tremendous financial advantage in the possession of a larger treasury and in the ownership of large playing fields in all the big cities.

With these advantages organized baseball won the battle but it cost both factions millions of dollars. It also convinced capital that organized baseball is impregnable—for many years to come, at least.

The outlaws of football, however, probably have just as much money and jurisdiction as the organized league because it had never been recognized by such a high source as baseball was.

Unless the baseball club owners get together and make some kind of an agreement about the use of their parks for football, the outlaws will have no legal obstacle to the leasing of baseball fields or other playing fields and as long as they have a place to play they will be in a position to compete with the organization teams.

3 Big Ten Basketball Games Tonight  
Chicago—Three Big Ten basketball games are on the card tonight. Northwestern invades Iowa City for a battle with the Hawkeyes, Purdue meets Wisconsin at Madison and Michigan meets Ohio State in the Buckeye camp.

Illinois 21, Indiana 20  
Bloomington, Ind.—In the closest basketball game seen in the local court this season, Illinois nosed out a 21-20 win over Indiana last night and went into first place in the Big Ten standing within five wins and two defeats.

St. Louis U Defeated Depaul  
Chicago—St. Louis university defeated the Box, is now showing at the New

19-Year-Old Quebec Dog-Sled Derby Favorite and His Lead Dog, Yukon, Splendid Specimen of Husky

Emil St. Goddard, 19-year-old French-Canadian "musher," has been the favorite among 20 entries for the Eastern International Dog-Sled Derby run at Quebec February 18, 19 and 20. St. Goddard recently won the Le Pas Derby for the second time, and last year he won the Quebec Derby. He is pictured above with his lead dog, Yukon, which was awarded the Balto Trophy for the best husky in last year's winning team at Quebec. Yukon, a powerfully built tawny dog, enters into the spirit of racing and seemingly never tires.

RAINBOWS WIN 6, LOSE 6, SO FAR THIS YEAR

LOCAL INDEPENDENTS HAVE SCORED 239 POINTS TO 259 FOR OPPONENTS

BERESFORD AND ZIEBELL HIGH SCORERS, EVERY PLAYER SCORED SOME

The Rainbows have won 6 and lost 6 games so far this year. They have four games yet to play, all in succession next week starting Wednesday night at Little Falls. If they can take two of the games, the team will end the season with a fine rating. Their defeats have come at the hands of some of the classiest teams in this section.

The hardest nuts for the team to crack next week will be the Aitkin Co. B team at Aitkin Thursday and French Athletic club of Duluth here on Saturday night.

In looking over the records, it develops that the Rainbows have won their victories by smaller margins than they lost their defeats. Their biggest victory was by ten points, defeating Little Falls here Thursday night 21 to 11. Their other wins were by margins of 6, 5, 4, 2 and 1 points. They lost two games by 12 points each, one by 10, and the others by 9, 3 and 2 points. Their opponents scored 20 points more during the season than the Rainbows did themselves, the count being 239 for the Rainbows, to 259 for their opponents.

Beresford leads the players in scoring, with 21 field goals and 10 free throws with a total of 52 points. Ziebell comes second with 18 field goals and five free throws for a 41 total.

Orth and Hagberg are the only players of the team who have taken some part in every one of the 12 games played by the team. Ziebell and Dieckhaus missed just one each.

The composite scoring tabulation follows:

Player	g	fg	ft	tm	pf	tp
Beresford	7	21	10	17	6	52
Ziebell	11	18	5	6	15	41
Heikkinen	9	12	2	4	3	26
Hagberg	12	12	2	2	6	26
Ericsson	2	8	0	0	0	16
Bollens	2	7	1	2	0	15
Larson	5	7	0	8	5	14
Day	7	7	0	4	7	14
Dieckhaus	11	4	4	10	12	12
Hansors	1	5	1	2	3	11
Olson	1	3	0	1	1	6
Orth	12	2	0	4	19	4
Jones	3	1	0	1	2	2
Totals	82	104	22	65	79	239

Milwaukee Teachers 16, Platteville Normal 9

Platteville, Wis.—The local normal quintet lost its first normal conference basketball game here last night to the Milwaukee teachers, 16-9.

Hall Defeats O'Shea  
Grand Island, Neb.—Roscoe Hall, Iowa City lightweight, won a 10 round decision over Bobby O'Shea. Frankie Larabee of Lincoln outpointed Mickey Durane of Detroit in eight rounds.

Millingan Defeated Zivic  
New York—With a decisive margin in six rounds, Tommy Milligan, European welterweight champion, won a 10 round decision from Jack Zivic, Pittsburgh, and reversed the decision given in a recent bout.

Berlenbach Planning Tour  
New York—Paul Berlenbach, world's light heavyweight champion, is planning an extensive tour that will take him to Boston, St. Louis, Cleveland, Memphis, New Orleans, Los Angeles, San Francisco, Portland, Winnipeg, St. Paul, Milwaukee and Chicago.

Hauser Named Coach  
Hamilton, N. Y.—George W. Hauser, assistant football coach at Iowa State college, has been appointed head coach at Colgate to succeed Dick Harlow, who resigned to coach at West Maryland.

West Point Athletics  
West Point—Army athletic officials probably will accept the invitation to enter a team in the Inter-collegiate boxing championships at Annapolis on March 26 and 27. It would be the first time that army and navy teams opposed each other in the ring.

Rosen Outpointed Eber  
Detroit—Clarence Rosen of Detroit outpointed Bad News Eber, Canadian bantam weight champion in a 10 round bout here last night.

Oshkosh Normal 35, Whitewater Normal 18

Oshkosh, Wis.—Whitewater normal lost to Oshkosh normal here last night 35 to 18 in a basketball game.

## BRAINERD PIONEER CALLED TO REWARD

Peter Early Died This Morning of  
Intestinal Trouble, Complicated  
With Pneumonia

WAS 92 YEARS OLD

Came to Brainerd in 1873 as Road-  
master for N. P., Pensioned  
19 Years Ago

Peter Early, pioneer settler of  
Brainerd, passed away this morning  
at 1:50 o'clock, at the St. Joseph's  
hospital, death being due to in-  
testinal obstruction complicated with  
pneumonia. The deceased was 92  
years old and has been in fine health  
up to two days ago.

Mr. Early was born in Dublin,  
Ireland, but in early life had moved  
to Edinburgh, Scotland, where he  
spent his youth. He came to Amer-  
ica as a young man, and entered the  
regular army at the age of 24 years.  
He served for eight consecutive years  
in the 22nd Cavalry, under Maj. Gen.  
George Cooke.

He saw service all during the Civil  
war, receiving his honorable dis-  
charge in 1876. Mr. Early was mar-  
ried in New York City to Miss Eliza-  
beth Agnes Kearney, and to this  
union were born six children. Three  
daughters preceded him in death,  
Mary, who died in childhood, Sarah,  
who died at the age of fifteen years,  
and Elizabeth (Mrs. E. M. Koop) who  
passed away about two years ago.

The children surviving him  
are Miss Sara Sue Koop, of Great Falls,  
Mont., Walter Koop of Minneapolis,  
Severn and Herman Koop, students  
at the University of Minnesota, Mrs.  
James Graham, of Brainerd, Gerald  
Early, of Laurel, Mont., and Jack  
and Kathleen Early, of Brainerd.  
Besides these, four great-grandchild-  
ren survive him, Elizabeth Louise  
Koop, daughter of Mr. and Mrs. Wal-  
ter Koop (nee Eleanor Alderson),  
Herman Early Koop, Jr., of Minne-  
apolis, Patricia Ann Early, daughter  
of Mr. and Mrs. Gerald Early, and  
Mary Elizabeth Graham, of Brainerd.

Mr. and Mrs. Early came to Brainerd  
in 1873 from Cheyenne, Wyo-  
ning, where Mr. Early's troop had  
been stationed. They made the lat-  
ter part of the trip to Brainerd in a  
stage coach. Mrs. Early passed away  
her reward about eighteen years ago.

Mr. Early was for many years in  
the employ of the N. P. railway com-  
pany here, coming to Brainerd as  
roadmaster for the road while there  
was still no road constructed here.  
After aiding in the building of the  
road, he served as car foreman here  
for many years. He was the first  
to receive a pension from the com-  
pany in Brainerd, being retired  
about nineteen years ago.

He made his home for some time  
up to last August, with Herman  
Koop in Minneapolis. Since August  
he has lived with his daughter, Miss  
Mabel Early, in the Mahlum block.  
He still owned at the time of his  
death his home on North 9th street.

Mr. Early was one of the two old-  
est living residents of this city. He  
and I. U. White came to the city at  
about the same time.

His chief characteristics, as known  
by his lifelong friends and acquaint-  
ances, were his honesty and his at-  
titude of fairness to his fellowmen.

The funeral will take place Mon-  
day morning at 8 o'clock from the  
residence of James Graham, 402  
South 6th street, with mass at the  
St. Francis Catholic church at 8:20  
a. m., Rev. Father James Hogan of-  
ficiating. Mr. Early was a member  
of Pap Thomas post of the G. A. R.

### DEPARTMENT SLEIGH RIDE

Intermediate Classes of Methodist  
Church Enjoy Party  
Friday Evening

The six classes of the Intermediate  
department of the First Methodist  
church enjoyed a sleigh ride last eve-  
ning, about 35 members of the de-  
partment being on hand. In the ab-  
sence of F. E. Lind, superintendent  
of the department, Henry Cunn-  
ingham was in charge, assisted by Mrs.  
Ethel Fox, one of the teachers of the  
department.

The young folks spent about two  
hours in the ride about town and  
into the country, then went to the  
church parlors, where they partook  
of a bounteous lunch of beans, sand-  
wiches, cookies, pickles and cocoa.

### A Card of Thanks

I wish to express my thanks to  
the many kindnesses and beautiful  
flowers received during my stay at  
the Northwestern hospital.

MRS. A. P. REYMOND.

### Mill Mission Sleigh Ride

The Baptist Mill Mission Sunday  
school enjoyed a sleigh ride party  
Friday night, February 19. There  
were about 125 children and 5 teams  
took them for a good ride, some  
past the cemetery and some past  
Lum park. They returned about 9  
o'clock, to the church and enjoyed  
a delicious lunch prepared by some  
of the older folks who remained at  
the church.

## 100 New York Brokers Do Business of \$250,000 In Stormy First Hour of New Rubber Exchange

change. One hundred brokers went

## TRUNK HIGHWAYS ARE SLIPPERY

N. E. IMPROVEMENT LEAGUE  
Meets on Tuesday Evening at Lowell  
School at 8  
O'clock

President Mrs. J. H. Herbert will  
make her committee appointments for  
the Northeast Brainerd Improve-  
ment league at its regular meeting  
on next Tuesday evening at the  
Lowell school, 8 o'clock.

There will be several other mat-  
ters of importance to come before  
the meeting.

At the last meeting there were  
several visitors present who made  
some valuable suggestions which  
were much appreciated. Every resi-  
dent of the Third ward is welcome  
to be present and take part in the  
meetings.

### FORE T RANGER SHORT COURSE

Brainerd Rangers Return After Two  
Weeks Course at University  
Farm

Earle E. Rhodes, state forester for  
the Brainerd district, No. 4, and As-  
sistant Rangers M. A. Rhodes and J.  
C. Gannaway, returned Thursday  
evening from St. Paul, where they  
attended a two weeks' short course  
for forest rangers.

The rangers and assistants from  
all of Minnesota's 18 districts were  
at the school, 49 men in all being  
present. The sessions were held at  
the University Farm School in St.  
Paul, with A. F. Oppel, assistant  
state forester, in charge. The men  
spent the two weeks in a review of  
fire prevention and control, and  
studied land surveying and engineer-  
ing as it applies to forest work.

Mr. Gannaway, of the local force,  
left later Thursday night for Grand  
Marais for a month of reconnaissance  
work for the forestry department.

### GIRLS SUNDAY

Special Music at Swedish Bethany  
Sunday School Tomorrow  
by Girls

The girls of the Swedish Bethany  
Sunday school will have several spe-  
cial numbers for tomorrow at 9:45  
a. m. They have prepared group  
songs, duets and solos. Efforts are  
being made by the girls to have a  
larger attendance than the boys had  
last Sunday, and to have better mu-  
sic.

One of the features last Sunday  
was a solo by Herbert Olson, 4 years  
old.

A hearty welcome awaits all, espe-  
cially the parents of the children.

### To Leave Hospital Soon

Miss Dorothy Sagli, who was shot  
a few days ago and had a 22 bullet  
removed from her temple, is getting  
along fine, and will be able to leave  
the hospital within a day or two.

### Frances Willard Supper

The W. C. T. U. will give a Fran-  
ces Willard supper at the home of  
Mrs. A. Angel, 424 South Seventh,  
on Friday, February 26.

### Drama League Meets

The Drama league will meet Mon-  
day afternoon at the home of Mrs. R.  
J. Hartley, 403 North Fourth street.  
Mrs. M. W. Pierce will read "Quality  
Street" by Barrie.

### Claimed He Shot Man in Dance Hall

Ipswich, S. D.—Alex Knittle,  
former marshal of Hosmer, was  
found guilty by a jury here late yes-  
terday of second degree manslaughter  
in connection with the death of  
Peter Voller. Knittle is said to  
have shot Voller in a dance hall last  
month during a fight between Voller  
and another lad.

### Appreciation of Merit

I think that, however a thoughtful  
man may suffer from the defects and  
absurdities of his company, he cannot  
without affectation deny to any set  
of men and women a sensibility to ex-  
traordinary merit. The coarse and frivo-  
lous have an instinct of superiority,  
if they have not a sympathy, and hon-  
or it in their blind and capricious way  
with sincere homage.—Emerson.

## OLD FIDDLERS ARE TUNING UP

Contest at Lyceum Drawing Much  
Interest Among Old-Timers  
in the City

STARTS THURSDAY, FEB. 25

Winner Will Meet Minneapolis  
Champion at Showing of "Old  
King Cole," March 14

The Brainerd Dispatch-Finkelstein  
& Ruben Old Fiddlers' contest will  
have its sendoff on Thursday night,  
Feb. 25, when the first of the series  
of three contests will be staged at  
the Lyceum theatre.

The contest will take place be-  
tween shows Thursday night, and  
the winner will be judged by the  
amount of applause he receives. Al-  
ready several fiddlers are entered for  
the contest, one entry coming in  
from St. Mathias, one from Verndale,  
and one from Motley, with several  
from Brainerd.

W. R. Miller, manager of the the-  
atre, who is staging the contests,  
states that Brainerd fiddlers so far  
have not exhibited as great an in-  
terest as outside fiddlers, and not as  
great an interest as the public de-  
mands. The general public, he says,  
would like to see a number of the  
old time drawers of the bow enter,  
and make a merry contest.

Prizes for the first contest will be  
a first prize of \$5, with other cash  
prizes. Other contests will be held  
on March 2 and March 11.

The winner of the local contest  
will compete with the Minneapolis  
winner, "Old King Tut" Schwanen-  
berger, who will come with the Finkel-  
stein and Ruben road show, "King  
Cole's Review," which shows here at  
the Park theatre on March 14. This  
review has a cast of 22 persons.

Fiddlers in and near Brainerd are  
urged to enter the contest here, as  
the more entries there are, the mer-  
rier time everyone will have.

## RECORDS ON COWS SHOW NET INCOME

Join a cow testing association, feed  
for economical production, and weed  
out the tramp cows. Profits will fol-  
low just as they have on hundreds of  
other farms where the milk is tested  
regularly by a competent tester, states  
A. J. Cramer, in charge of cow test-  
ing work in Wisconsin for the United  
States bureau of dairying, the Wiscon-  
sin Dairymen's association, and the  
Wisconsin College of Agriculture.

The cows in well-kept herds tested  
in a cow testing association, fed in ac-  
cordance with the efficient tester's ad-  
vice easily average 300 pounds of but-  
terfat a year, Cramer reports. On the  
other hand, 12 months' records on 15  
poor cows in Wisconsin cow testing  
associations show an average of 100  
pounds of butterfat valued at \$50. On  
these cows the average feed cost was  
\$47, leaving only \$3 income over feed  
cost. Cramer asks: "How many such  
cows can farmers afford to keep?"

The cow testing association in Wis-  
consin is composed of about twenty-  
six farmers with a hired tester who,  
usually, is at least a graduate of the  
short course at the Wisconsin College  
of Agriculture. The tester spends one  
day a month on each farm and while  
there, according to Cramer, gets a  
complete record of milk and butterfat  
production for each cow in the herd.  
He also obtains feed consumption  
costs, costs of feed, and figures in-  
come over feed cost.

Using these results as a guide,  
Cramer tells how the farmer and the  
tester figure out together better meth-  
ods of feeding and of care and man-  
agement of the herd. They plan to  
eliminate all cows that do not respond  
profitably to intelligent feeding and  
they give attention to problems of  
breeding. Many times the tester has  
been an aid in helping the members  
of his association to obtain higher  
prices ranging from \$10 to \$25 more  
per cow for cow testing association  
cows with records.

Wisconsin's 162 cow testing associa-  
tions are on the march toward a more  
economical dairy production system  
for the state.

### CITATION FOR HEARING ON FINAL ACCOUNT AND FOR DIS- TRIBUTION

No. 2512  
State of Minnesota, County of Crow  
Wing, ss., in Probate Court.  
In the matter of the estate of George  
H. Gardner, Decedent.  
The State of Minnesota to all persons  
interested in the final account and dis-  
tribution of the estate of said decedent:  
The representative of the above named  
decedent, having filed in this Court her  
final account of the administration of  
the estate of said decedent, together  
with her petition praying for the ad-  
justment and allowance of said final  
account and for distribution of the residue  
of said estate to the person thereunto  
entitled.

Therefore, you, and each of you, are  
hereby cited and required to show  
cause, if any you have, before this  
Court at the Probate Court Rooms in  
the Court House in the City of Brainerd,  
in the County of Crow Wing, State  
of Minnesota, on the 15th day of March,  
1926, at ten o'clock A. M., why said  
petition should not be granted.  
Witness, the Judge of said Court, and  
the Seal of said Court, this 19th day  
of February, 1926.  
L. B. KINDER,  
Judge of Probate.  
F. E. EHRNER,  
Brainerd, Minnesota,  
Attorney for Petitioner. 2214238

## Variation in Production of Milk Due to Feeding

Dairymen are often puzzled as to  
the explanation of why two cows of  
the same age, breeding, and under  
similar management vary so widely in  
milk production.

In a study to determine the under-  
lying cause of this variation the dairy  
department of the Missouri College of  
Agriculture kept exact feed and pro-  
duction records of two cows of similar  
breeding. It was found that the cow  
producing the largest amount of milk  
and butterfat consumed a great deal  
more feed than the cow producing  
only a small amount of fat. From  
this it is concluded that the under-  
lying reason for the variation in the  
milk production of cows is due to the  
difference in the amount of feed they  
are able to consume and use above  
that required for maintenance. Both  
cows were equally efficient in digest-  
ing the feed which they received. In  
other words, a cow is a large pro-  
ducer because she is able to consume  
a large amount of feed above the  
maintenance requirement and uses  
this feed for the production of milk.  
This, of course, means that a cow  
must have a large udder containing a  
large number of cells which secrete  
milk. On the other hand, the small  
producer has a small capacity for feed  
and also mammary glands.

### Form of Milk Pail

The form of milk pail used in milking  
is an important factor in eliminat-  
ing contamination of the milk. The  
Geneva station found that ordinary  
12-quart pails to which had been  
soldered covers with oval openings 5 by  
7 1/2 inches, were most satisfactory.  
These covers were sufficiently convex  
so that the entire inside of the pail  
could be easily observed and readily  
cleaned. Their height was only 12 1/4  
inches, so that they could be com-  
fortably used in milking short-legged  
or heavy-uddered cows.

### Prevent Bacteria in Milk

It is a common practice with some  
dairymen to brush their cows just be-  
fore milking. In a study of this prob-  
lem it was found that there was uni-  
formly a higher number of bacteria in  
the milk drawn from the cows which  
had just been brushed than there was  
in the milk drawn from the cows which  
were milked before the brushing was  
done. These results are not surpris-  
ing to those who appreciate the fact  
that the hair and skin of the cow nor-  
mally carry very large numbers of  
bacteria.

## BAPTISTS SPOIL METHODIST HOPES FOR 2ND PLACE

BILLY SMITH SCORES ALL BAPTIST POINTS IN WINNING 7 TO 4

BEST BAPTISTS CAN GET IS TIE FOR LAST PLACE IN DIVISION

The First Baptist Juniors spoiled the hopes of the Methodist team for a clear title to second place in the Junior division, when little Billy Smith went mad in the closing game last night to score all of the Baptist points in a 7 to 4 victory over the Methodists.

The Methodist team still has a chance to cop second honors in the division, should the Evangelical Juniors down the Presbyterians in the tie game which will be played off Monday night. If the Presbyterians win, they go into a tie for second place with the Methodists.

Billy Smith showed his class in the game last night. He was everywhere, and there was no stopping him. Two of his goals came in the first half, while one field goal and a free throw came in the last half.

Mayo and White scored each a basket for the Methodist points.

First Baptist	pos.	Methodists
Smith	rf.	Kyllo
Nelson	lf.	Mayo
Storm	c.	White
Masters	rg.	Lammon
Christian	lg.	Davis, Bouma

Field goals—Smith 3, Mayo 1, White 1. Free throws—Smith 1.

A combined Oxford-Cambridge lacrosse team will tour the United States next year, playing a series of international matches. Their first game will be with the University of Maryland on April 3.

There are nine major league twirlers still using the spitball—three in the National and six in the American. All of them are classed as veteran pitchers who have been using the spitball for ten years or more.

Rev. Charles H. Urban, the "Fighting Parson," on the freshman football team of the University of Pennsylvania, has taken up wrestling for the winter. He is six feet one inch in height and weighs 192 pounds, and is the father of two children.

### Got Too Near Volcano

Pliny, the Elder, the celebrated Roman naturalist, met his death A. D. 79 while trying to get as close as possible to Vesuvius to observe to better advantage an eruption of that famous volcano.

## WINNIPEG BOY DOG MUSHERS UP IN ARMS

Winnipeg, Man., Feb. 20.—Winnipeg boy dog mushers are up in arms. Annually they stage a big dog race on one of the principal streets of the city. It is two hours of howling excitement with unending dog fights and hectic battles between the drivers.

Last year while the dogs and boys were battling, Pearl Spencer, a diminutive eleven year old lassie, sneaked out in front with her entry and romped home a winner. The boys were gallant and cheered her lustily.

This morning, however, when Pearl showed up again for the race the gallantry was forgotten and she had to battle her way through nearly one hundred entries to another victory.

Next season the boys intend to have an amendment framed barring girls from the race.

## MLLE. LENGLEN IS REPORTED 'VERY ILL'

TAKEN HOME FROM BEAULIEU COURTS AND ORDERED TO BED

Beaulieu, France, Feb. 20.—(UP)—Mlle Suzanne Lenglen is reported "very ill" and has scratched her entry in the women's doubles play here, it was announced by the committee.

Fear was expressed by tennis fans that the French star might not be able to play in the Nice tournament where she was expected to meet Helen Wills for their second match next month.

Suzanne started for the courts today and was taken suddenly ill, according to a telephone message to George Simons, manager of the tournament, from her father.

She was taken home and after being examined by a physician was ordered to bed.

Nice, Feb. 20.—(UP)—After being ordered to bed by her physician, Suzanne Lenglen, refused to remain there when an official of the Beaulieu tournament arrived to protest over her scratching her entry in the women's tennis doubles. It is understood that despite the orders of her father she will go to Beaulieu and reenter the tournament there.

Miss Wills and her partner, Charles Kinglsey, won their first round match in the mixed doubles by defeating Mr. and Mrs. Randolph Lycett, England at 6-3 and 6-4.

## BRAINERD GIRLS 22, CROSBY GIRLS 9

BEGGS LEADS TEAM TO VICTORY IN GAME AT CROSBY LAST NIGHT

With Beggs leading the way, the Brainerd girls romped off with a 22 to 9 victory over the Crosby girls last night in a preliminary game to the big game there last night.

Beggs scored nine field goals and one free throw for 19 points, with Michael making the other points on a field goal and a free throw.

For the Crosby girls, Peterson, forward, scored two field goals and four free throws for eight points, Cummins being the only other player to score, getting one point on a free throw.

The line-ups were:  
Brainerd—Michael, rf.; Beggs, lf.; Trask, c.; Alzant, c.; Reuter, rg.; Storm, lg.; Early and Nolan, subs.

Crosby—Peterson rf.; Snyder, lf.; Erickson and Brown, c.; Darling, rg.; Giovannette, lg.; Cummins, sub.

### Morgan to Meet Goodrich

Milwaukee, Wis.—Tod Morgan and Jimmy Goodrich who meet in a scheduled 10 round bout here Monday night arrived late yesterday and immediately started training.

### Reprove Wisely

Reproof, especially as it relates to children, administered in all gentleness, will render the culprit not afraid, but ashamed to repeat the offense.—Hosea Ballou.

## LOCALS LOSE TIGHT GAME TO CROSBY, 21-20

BRAINERD OFFENSE DISORGANIZED ON LARGE FLOOR, DEFENSE GOOD

BUTORAC, CENTER FOR CROSBY, HIGH SCORER WITH 7 BASKETS

The local high school team lost a heartbreaker to Crosby-Ironton last night at the range town, 21 to 20, in a game that was anybody's game up to the final whistle.

The locals, used to a small floor, seemed lost, as has often happened before, when they stepped out upon the Crosby floor. Their offense was somewhat disrupted, but the defense functioned well.

Poor passing on the part of Brainerd was responsible for the defeat. Brainerd had an off night last night, Marshall especially being far from form. Marshall usually plays a superb game, but last night had a lot of trouble with his shooting.

The Crosby offense was fast, accurate passing counting heavily in bringing the ball into scoring position.

Near the end of the game, Brainerd started a spurt which brought them to within one point of victory. They were six points behind at the beginning of the last quarter, but pulled up quickly, Fitzharris counting twice from the field in that period.

Fitzharris and Orth were the best bets for Brainerd on the scoring end. This was Fitzharris' first conference game, and he showed up well.

Butorac, center of the range quint was the big gun, with 7 field goals. He was a flash in his playing, and accurate in shooting.

Brainerd threw away the game several times toward the close. The team missed 9 out of 13 chances from the free throw line. Crosby missed 6 out of 9.

Adams of St. Cloud refereed the game in splendid manner. In looking over the list of defeats handed Brainerd this year, it appears that they have lost five conference games by narrow margins. The team has won three out of eight games, winning twice from Pine River and once from Wadena. They have been beaten twice by Crosby, twice by Little Falls and once by Staples.

Little Falls beat the locals by 2 and 3 points, Crosby beat them by 3 and 1 points, and Staples by 5 points.

### Summary:

### TRADING SUBSTANTIALLY REDUCED

New York, Feb. 20.—(UP)—Trading was substantially reduced in the week end session by the slim attendance on the floor and in commission houses, owing to the opportunity afforded for a three day holiday by Monday's suspension of Stock Exchange activities. But professional attempts to capitalize this situation by marking prices

## 1 OF 7 MEXICANS ACCUSED AFTER WHOLE FAMILY END LIVES BECAUSE OF SHAME

Above is shown Luis Amador, proprietor of the Oakland Bar in Tijuana, Mexico, who with Chief of Police Zenaido Llanos and five others was held in connection with the deaths of two girls, who it is alleged, were drugged and attacked while at Tijuana. The kidnapping is said to have taken place in the Oakland Bar. The father and mother of the girls, Mr. and Mrs. T. M. Petest, were so ashamed that they committed suicide by gas along with their daughters. They left deathbed depositions.

down were checked by indications of powerful support which had their most striking manifestations in a further sharp uprush in American Can, whose sponsorship lies with Wall street's most influential banking interests.

Industrials were unable to make headway against Can's leadership, although they were successful in forcing further liquidation in Baldwin and American Locomotive. However, these spots of heaviness were offset by special strength in various issues including Allied Chemical, United Cigar Stores, Foundation Company and Columbia Carbon.

The market closed irregular.

## LOUISE KING, CO-ED TELLS OF ALLEGED CRIMINAL ASSAULT

Mason, Mich., Feb. 20.—(UP)—Louise King, 20 year old college co-ed, today took the stand in Ingham county court here and retold her version of an alleged criminal assault of which she accuses Arthur C. Rich, son of a wealthy Battle Creek family. Rich is on trial for the second time, the first trial ending in disagreement of the jury.

## Grinding Hay for Dairy Cows Is Not Profitable

Experiments conducted by the dairy husbandry section of the Iowa experiment station indicate that it doesn't pay to grind alfalfa hay when it is to be fed to dairy cows. At least it wasn't profitable in these preliminary tests. Eight cows were used in the experiment.

The use of ground alfalfa did not increase the yield of either milk or butterfat in these tests and, in addition, there was a greater amount of ground hay refused by the cows than of the unground hay.

It cost \$3.50 per ton to grind the alfalfa and there seems little likelihood that this figure could be reduced on the average farm, those in charge of the test say. The grinding cost, they state, represents from 20 to 25 per cent of the market value of the hay on the farm in the average year.

### Dairy Facts

The water supply is of greater importance than most farmers realize. To produce 30 pounds of milk a cow requires 100 pounds of water.

Calves placed in the feedlot at weaning time and continued therein until finished for market make from 50 to 75 per cent more gain from the same feed than do mature steers.

### That's Their Business

A very heavyweight boxer is said to be new handsome. His opponents, however, will doubtless do their best to correct this impression.
